I am an aspiring UI/Visual Designer with impeccable attention to detail. I have a total of 8 years of experience, ranging from graphic design, UX research, wire framing, logo, Icon and most importantly, Information visualisation.

My primary focus throughout, has been to create:
- **Adaptable design systems across standalone & web based**
- **Responsive, multi-screen UI design**
- **User-Centered Design process**

EXPERIENCE

● **SENIOR ASSOCIATE - UI/UX DESIGNER**

kCube Consultancy Services   April 2016 - Present

- Collaborated with GIS experts and developers to ensure seamless integration
- Used in 8 internal and 5 customer-facing projects.
- Created a multiscreen/multi-platform design system.
- My primary responsibility is to handle 4 teams with around 20+ members to solve design needs

● **GRAPHIC DESIGNER**

Satori Technologies   April 2015 to April 2016

- Conceptualised & created graphics for kindergartens
- Created designs for various mediums, including School books, print materials, and branding assets.
- Character designing
